Objective

As a result of this activity the students will be able to:

- Work together as a group
- Exercise their imagination

Materials

- None

Directions

1. Have the students get into groups of 4-5 and assign each group a machine.
2. Give the students five minutes to figure out how they are going to silently act out their machine in front of the rest of the class.
3. Have each group go to the front of the room and act out their machine. Let the rest of the class guess what machine they are.

Example machines: washing machine, toaster, blender, telephone, can opener, pencil sharpener, sprinkler, printer, fan, roller coaster
